

2009 ITE MIDWESTERN DISTRICT ANNUAL CONFERENCE

Kalahari Resort and Convention Center
Wisconsin Dells

June 17-19, 2009

Professional Traffic Operations Engineer (PTOE) Exam Refresher Course

Interested in taking the PTOE Exam or just want to “brush up” on your traffic engineering knowledge? The 2009 Midwestern District Annual Conference will include a PTOE refresher course on Wednesday, June 17th prior to the start of the formal conference activities.

Course Overview:

The Professional Traffic Operations Engineers (PTOE) Refresher Course is intended to provide an overview of topics, key references, and an independent study guide for practicing engineers who intend to take the PTOE certification examination. The course prepares participants for the examination, but is not keyed specifically to examination questions. It is expected that participants will take the refresher course, use it as a guide for self-study, and then take the certification exam at some future date. Emphasis of the training modules is on an overview of the topic, specific linkages to references, and a set of take-home examples for individual study. These instructional modules are intended to emphasize basic concepts, practical problem solving, and fundamental terminology.

Course Instructors:

Pat Hawley (R.A. Smith National)
Rob Beuthling (HNTB)
Rich Coakley (CH2M Hill)
Dave Platz (FHWA)
Wayne Higgins (Traffic Engineering Services)

Note: All course instructors are registered professional engineers and professional traffic operations engineers
